

The background of the image is a photograph of a lush, green forest. The trees are tall and thin, with dark trunks and light green leaves. The forest is dense, with many trees visible in the foreground and background.

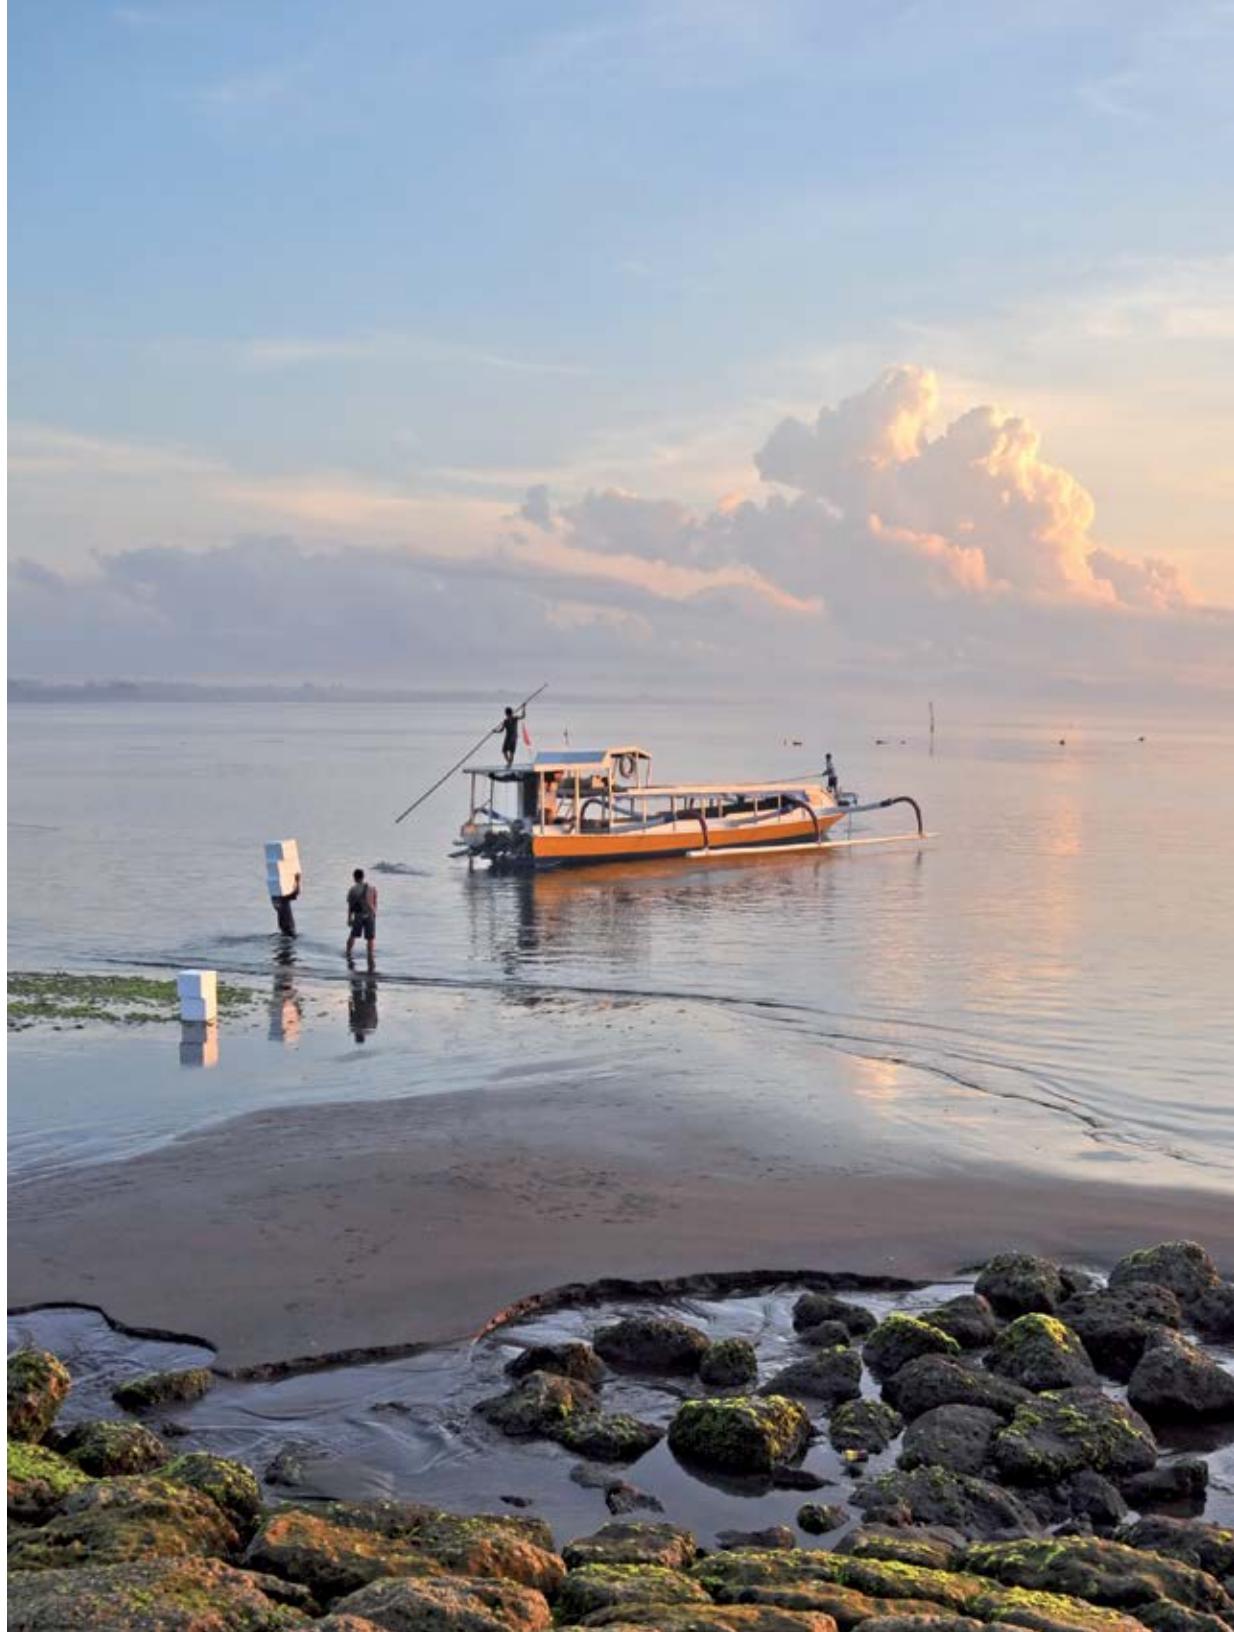

GLOBAL FOOTPRINT NETWORK
ANNUAL REPORT **2013**

Global Footprint Network
Advancing the Science of Sustainability

Our mission is to help end ecological overshoot by making ecological limits central to decision-making. By promoting data, tools, and analysis linking resource constraints to economics and well-being, Global Footprint Network influences major investments and policy shifts to support global sustainability.

Our vision is that all people can live well, within the means of nature.

**WE'VE ENGAGED
IN 62 COUNTRIES
ON 6 CONTINENTS
TO MAKE ECOLOGICAL
LIMITS CENTRAL TO
DECISION-MAKING.**

2013 BY THE NUMBERS

35 National Engagements

AUSTRIA
BANGLADESH
BHUTAN
