Dear Friend,

Global Footprint Network is unveiling something new!

We're excited to invite you to explore and populate our [new solutions platform](#), developed with the support of our Czech partner Mapotic:

<https://movethedate.overshootday.org>.

[Subscribe](#)[Past Issues](#)[Translate ▼](#)

real world. How? By sharing knowledge of what works and bringing people together.

Are you game?

The process is simple:

1. [Join the community](#). If you fill in your location on your Mapotic profile (as general or specific as you feel comfortable with), you will be visible on the map so you can easily connect with other Date Movers.
2. **Post your favorite real solutions** (3! 5! 12! More!) to live in balance with our planet – maybe you have personally implemented them, or you have been inspired by them.
3. **Check out who** else has joined and **what** they've been sharing.
4. **Invite friends!** The larger the online community, the more knowledge available and the more opportunities for collaborative projects in the real world.
5. **Come back often** to see what's new and who's joined!

Last but not least, [email us](#) with any question, request, or feedback you may want to share. We would love to hear from you.

We can't wait to see you there!

Laetitia, Kristine and the Earth Overshoot Day campaign team
